Environment Audit Report
DE PAUL INSTITUTE OF SCIENCE AND TECHNOLOGY, ANGAMALY
Report No: EA 760
2021- April

About OTTOTRACTIONS

OTTOTRACTIONS established in 2005, is an organization with proven track record and knowledge in the field of energy, engineering, and environmental services. They are the first Accredited Energy Auditor from Kerala for conducting Mandatory Energy Audits in Designated Consumers as per Energy Conservation Act-2001. Government of Kerala recognized and appreciated **OTTOTRACTIONS** by presenting its prestigious **"The Kerala State Energy Conservation Award 2009"** for the best performance as an Energy Auditor.

Environment Audit Team

Ottotractions

1	Er. Suresh Babu B V	Accredited Energy Auditor, AEA 33
2	Er. B. Zachariah	Director, Ottotractions
3	Er. Abin Baby	Project Engineer, Ottotractions
4	Er. Mohammed Aneez	Project Engineer, Ottotractions
5	Er. Anandu S J	Project Engineer, Ottotractions
6	Er. Harikrishnan S	Project Engineer, Ottotractions

De Paul Institute of Science & Technology, Angamaly

7	Rev. Fr. George Pottayil VC	Director
8	Fr. Lindo Puthuparambil VC	Director, Finance
9	Dr. Unny CJ	Principal
10	Jacob Thaliyan	Associate Professor

Acknowledgment

We were privileged to work together with the administration and staff of DE PAUL INSTITUTE OF SCIENCE AND TECHNOLOGY, Angamaly for their timely help extended to complete the audit and bringing out this report. We thank Rev. Fr. George Pottayil VC, Director; Fr. Lindo Puthuparambil VC, Director, Finance; Dr. Unny CJ, Principal and Jacob Thaliyan, Associate Professor for their advises and support during the audit.

With gratitude, we acknowledge the diligent effort and commitments of all those who have helped to bring out this report.

We also take this opportunity to thank the bona-fide efforts of team OTTOTRACTIONS for unstinted support in carrying out this audit.

We thank our consultants, engineers and backup staff for their dedication to bring this report.

Thank you.

B V Suresh Babu
Accredited Energy Auditor
AEA 33, Bureau of Energy Efficiency

Preface

Educational institutions always had an important leadership role in society in demonstrating types of changes that used to occur with respect to the prime issues of the time. All around the world, educational institutions are taking steps to declare themselves the next carbon neutral school as a part of the global trend of becoming sustainable. In 2007, Victoria University School of Architecture and Design declared themselves the first carbon neutral campus in the world through the purchase of carbon credits. This concept is not a sustainable model as it does not guarantee the capture of carbon forever and also it is expensive.

The potential for any academic institution- (may be a school in a remote village or a University in an urban setting) - to become the driver for change is huge. Its role of practicing leadership in its community can be utilized to encourage and influence carbon neutral living.

The biggest factors that contribute towards emission are Energy, Transportation and Waste. Any reduction in the carbon emission by the above sectors, starts with the behavioral changes (Low cost) and/or technological investments (High cost). In order to make these changes, the students are to be educated properly on the concept of carbon neutral campuses and methods to reduce it.

In India, the concept of carbon neutral campuses is gaining momentum. Green Audit in Campuses measures the amount of Green House Gases (GHG) emissions produced as a result of its operations through an accounting like inventory of all the sources of GHGs and carbon sequestration in the school campus. Based on this, the total carbon footprint is estimated. Measures are recommended to bring down the carbon footprint of the campus and to make it a carbon neutral campus.

B Zachariah

Technical Supplement		

INTRODUCTION

Ottotractions was asked by the DE PAUL INSTITUTE OF SCIENCE AND TECHNOLOGY, ANGAMALY to carry out an environmental audit of their campus building.

Each section contains recommendations for improvements relating to environmental issues, which are consolidated in the action plan in section 4.

BACKGROUND

De Paul Institute of Science & Technology (DiST), Angamali, is an ISO 9001:2015 Certified professional college run by De Paul Education Trust and owned by Marymatha Province of Vincentian Congregation. Education is one of the most important areas of its activities. The Vincentians hold aloft the sublime values of justice, peace and love and aims at creating a new generation with a difference. The students must prove not only their academic excellence but also show a deep commitment to the society they live in. De Paul Institute of Science & Technology (DiST) provides a comprehensive range of academics like Media

Courses, Courses in Computer science, Management course, MSW and BSW (Social Work Department) and is one among the leading MBA colleges in Kerala. The college is situated in an eco-friendly and academic-friendly atmosphere amidst fast developing industrial and business town and sylvan surroundings. The college is located in 2.45 acres of land with a total built up area 10,471.66 m^2.

.

Occupancy Details	
Particulars	2020-21
Students	821
Teaching & Non- Teaching staff	169
Total occupancy of the college.	990

Total student strength of the campus is 821. For calculating per capita carbon emission estimation, the student strength is taken into account.

ENVIRONMENTAL ISSUES

This section is broken down into the following different areas: waste, water, energy, resource and materials use and procurement. A final 'other' section is also included for any additional issues.

1.1. Waste

The way communities generate and manage their waste plays an absolutely key role in their ability to use resources efficiently. All buildings contain bins for both general waste and mixed recyclables

(plastic bottles, card, cans and paper). On average each floor in the buildings areas has its own general waste bin and one recycling bin. When the bins are emptied by the cleaning staff. Bins are marked and kept in different colors for identification, however in some locations throughout the building it was unclear which bins were for which waste streams.

There are four basic ways in which campus can do plastic recycling collection services for plastic bottles and containers – curbside, drop-off, buy-back or deposit/refund programs. The first, and most widely accessible, collection method is curbside collection of recyclables. The campus is installed bins to collect plastic bottles and single use plastics. SGC has given a proper awareness on plastic waste problems and they are discouraging the students or teachers to carry plastics to the campus. The ECO club is very active in the campus and do a verity of programs to build awareness on waste management. The reports on different activities of the club is attached as technical supplement of this report.

The major concern of waste management will be focused on the solid waste produced by the campus. Solid wastes produced in the campus are mainly of three types, food waste, paper waste, and plastic waste. Food wastes produced in the campus are mainly by two means. The vegetable wastes produced in the kitchen during the food preparation. The food waste produced by the students and staffs of the campus after the consumption of meals. The degradable waste is treated in the biogas plant, the biogas generated is used in the kitchen. A state of art sewerage treatment plant is installed in the campus

Degradable Waste Generation 2020-21	
DE PAUL INSTITUTE OF SCIENCE AND TECHNOLOGY, ANGAMALY	
Waste generated in kg per day	20.5
Waste generated in kg per Yr	449

Burning plastics shall be strictly restricted inside the campus. Burning plastic and other wastes releases dangerous substances such as heavy metals, Persistent Organic Pollutants, and other toxics into the air and ash waste residues. … Such pollutants contribute to the development of asthma, cancer, endocrine disruption, and the global burden of disease.

Solid Non degradable Waste Generation 2020-21	
DE PAUL INSTITUTE OF SCIENCE AND TECHNOLOGY, ANGAMALY	
Non degradable Waste generated per day	4
Waste generated in kg per Yr	81

WASTE MINIMIZATION AND RECYCLING			
1	Does your institute generate any waste?		Yes, Solid waste Canteen waste, paper, plastic, Horticulture Waste etc
	If so, what are they?		
2	What is the approximate amount of waste generated per day? (in Kilograms/month) (approx.)		Bio Degradable Non- Biodegradable Hazardous others
3	How is the waste generated in the institute managed? By		Reuse of one side printed Paper for internal communication. Sewage water is discharged to public Sewer. Kitchen waste is used to generate manures. Two types of Waste bins are provided at campus for biodegradable and non biodegradable waste.
	1	Composting	In-house
	2	Recycling	In-house
	3	Reusing	In-house
	4	Others (specify)	
4	Do you use recycled paper in institute?		Yes
5	Do you use reused paper in institute?		Yes
6	How would you spread the message of recycling to others in the community? Have you taken any initiatives? If yes,		Number of awareness programs through ECO Club
	please specify.		
7	Can you achieve zero garbage in your institute? If yes, how?		Not yet achieved. Possible through waste management plan.

Green Cover Audit			
1	Is there a garden in your institute?	Yes	
2	Do students spend time in the garden?	Yes	
3	Total number of Plants in Campus	Plant type	Approx. number
		Trees	82
		Ornamental	Not estimated
4	Number of Tree Plantation Drives	Yes, Through ECO club	
5	Number of Trees Planted in Last FY.	NA	
	Survival Rate		80%

All the activities including energy consumption and waste management have their equivalent carbon emission and they positively contribute to the carbon footprint of the campus. Carbon sequestration is the reverse process, at which the emitted carbon dioxide will get

sequestrated according to the type of carbon sequestration employed. Even though there are many natural sequestration processes are involved in a campus, the major type of sequestration among them is the carbon sequestration by trees.

Trees sequestrate carbon dioxide through the biochemical process of photosynthesis and it is stored as carbon in their trunk, branches, leaves and roots. The amount of carbon sequestrated by a tree can be calculated by different methods. In this study, the volumetric approach was taken into account, thus the details including CBH (Circumference at Breast Height), height, average age, and total number of the trees, are required. Details of the trees in the campus compound are given in the Table 3.18. Detailed table is included in the technical supplement.

Carbon Sequestration	
Particular	tCO_2e
Carbon sequestration SGC	6.43

Carbon sequestrated by a tree can be found out by using different methods. Since this study is employed the volumetric approach, the calculation consists of five processes.

- Determining the total weight of the tree
- Determining the dry weight of the tree
- Determining the weight of carbon in the tree
- Determining the weight of CO_2 sequestrated in the tree
- Determining the weight of CO_2 sequestrated in the tree per year

Carbon sequestrated by each species of trees in the campus compound is given in the Table.3.19 Detailed calculation results are listed out in the tables provided in the technical supplements of 'Carbon sequestration'.

Sl. No	Name of tree (common name/ scientific name)
1	*Macaranga peltata*
2	*Swietenia macrophylla*
3	*Cocos nucifera*
4	*Artocarpus heterophyllus*
5	*Oligonychus biharensis*
6	*Syzygium jambos*
7	*Mimusops elengi*
8	*Borassus flabellifer*
9	*Bambusa vulgaris*
10	*Cassia fistula*
11	*Tamarindus indica*
12	*Terminalia catappa*
13	*Azadirachta indica*

3.1.1 ENERGY

a. Electricity

The total emission of the carbon dioxide per student is 80.47 kg per year. Emission reduction plans were prepared to bring the existing per capita carbon footprint to zero or below so as to bring the campus a carbon neutral or carbon negative campus. A renewable energy project is already implemented, ie. 70kWp solar power plant which mitigates 65.28 tCO_2e in the current year. So the effective specific carbon emission per student is 90.18 kg of CO_2 per year only

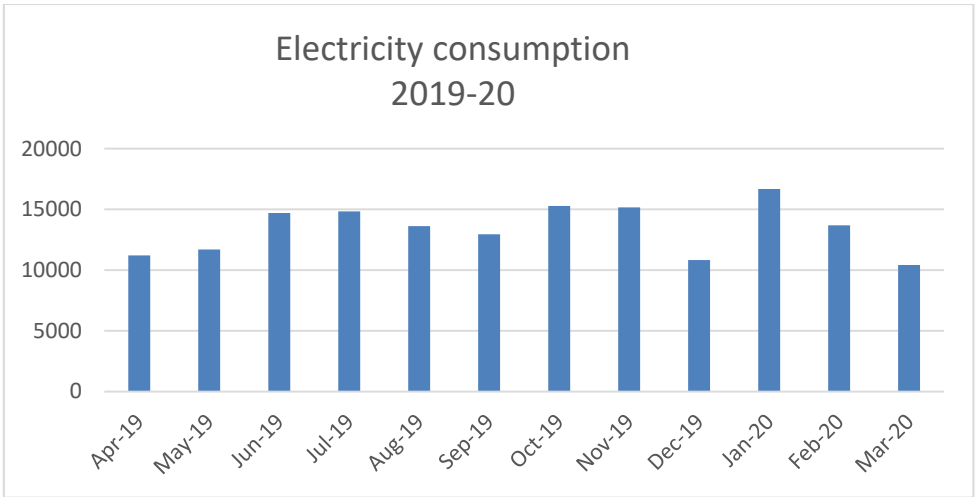

This can be achieved in many ways but, every alternate plan must be in such a way that, it must fulfill the actual purpose of each activity that is considered.

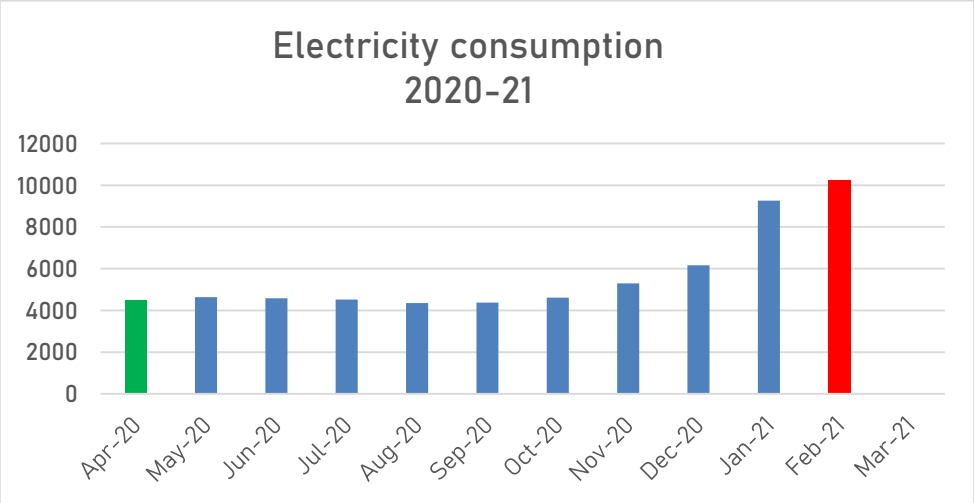

Here, three major methods are taken in to account as the plans for reducing the carbon emission of the campus.

- Resource optimisation
- Energy efficiency
- Renewable energy

Electricity Consumption

OTTOTRACTIONS- ENERGY AUDIT		
DE PAUL INSTITUTE OF SCIENCE AND TECHNOLOGY, ANGAMALY		
Baseline Data (2020-21)		
1	Electricity Provider	KSEB
2	Tariff	HT II (B) GENERAL
3	Contract Demand	75
4	Maximum Demand (avg. in kVA)	28
5	Connected Load (kW)	148.560
6	Electricity Consumption kWh /yr.	68199
7	Disel Consumption L/yr.	4196
8	Disel in kWh/yr.	57763
9	Petrol Consumption L/yr.	3035
10	Petrol in kWh/yr.	39528
11	LPG Consumption in kg/yr.	912
12	LPG Consumption in kWh	13256
13	Total Energy Consumption (kWh)/yr.	178746
14	Energy Cost (KSEB) (Lakhs Rs)/yr.	7.0
15	Rs/kWh (avg.) (KSEB)	12

Consolidated kWh Consumption for all Consumers		
Consumer No	19-20	20-21
1345530020581	161058	68199
Total	161058	68199

Students	821
Teaching & Non- Teaching staff	169
Total occupancy of the college.	990

During the energy audit filed studies, 231 T-8 lamps were identified, which is considered as inefficient. 63 CFLs, 81 LED bulbs and 33 LED tubes were found during the audit. The detailed energy efficiency projects are given in the respective chapters of this report.

RESOURCE OPTIMISATION

The effective use of resources can limit its unnecessary wastage. Optimal usage of the resources (such as fuels) can save the fuel and can also reduce the carbon emission due to its consumption. This technique can be effectively implemented in the 'transportation' and 'waste' sectors of the campus.

WASTE MINIMISATION

Optimal utilization of paper and plastic stationaries can reduce the frequency of purchase of items. This can reduce the unnecessary wastage of money as well as the excess production of waste. In the case of food, proper food habits and housekeeping practices can optimise its usage.

Currently, SGC is taking an appreciable effort to reduce the unnecessary production of wastes. But the campus still has opportunities to reduce the generation of waste and can improve much more. Resource optimization can be effectively implemented in all type of waste generated in the campus and the campus can expect about 50% reduction the total waste produced.

ENERGY EFFICIENCY

Energy efficiency is the practice of reducing the energy requirements while achieving the required energy output. Energy efficiency can be effectively implemented in all the sectors of the campus.

FUELS FOR COOKING

The campus can install a solar water heater to rise the water temperature to a much higher level, then it has to consume only very less amount of thermal energy for preparing the same amount of food. This can make a positive benefit to the campus by saving money, energy and can reduce the carbon emission of the campus due to thermal energy consumed for cooking.

TRANSPORTATION

Energy efficiency of the transportation sector is mainly depended on the fuel efficiency of the vehicles used. Here mileage of the vehicle (kmpl - Kilometres per Litre) is calculated to assess the fuel efficiency of the vehicle. Percentage of closeness is the ratio of actual mileage of the vehicle to its expected mileage. If the percentage of closeness of mileages of each vehicle is greater than that of its average, then the efficiency status of the vehicle is considered as 'Above average' and else, it is considered as 'Below average'

Renewable Energy

Biogas plants and solar power plants are installed in the campus which helps offsetting the carbon foot print. The details of these projects are given in the concerned chapters.

After analyzing the historical and measured data the following projects are proposed to make the campus carbon neutral. The projects are from energy efficiency and renewable energy. The further additions in the green cover increase will also give positive impact in the carbon mitigation.

OTTOTRACTIONS- ENERGY AUDIT						
Executive Summary						
Consolidated Cost Benefit Analysis of Energy Efficiency Improvement Projects						
DE PAUL INSTITUTE OF SCIENCE AND TECHNOLOGY, ANGAMALY						
Sl No	Projects	Investment	Cost saving	SPB	Energy saved	
		(Lakhs Rs)	(Rs)/Yr	Months	kWh/Yr	toE/Yr
1	Energy Saving in Lighting by replacing existing 30 No's T12 Lamps to 18W LED Tube in Main block	0.25	0.17	17.98	1431	0.12
2	Energy Saving in Lighting by replacing existing 50 No's T8 Lamps to 18W LED Tube in Main block	0.42	0.33	14.90	2891	0.25
3	Energy Saving in Lighting by replacing existing 87 No's 15W CFL Lamp to 9W LED Bulb in Main block	0.15	0.01	177.48	1372	0.12
4	Energy Saving by replacing existing 122 No's in-efficient ceiling fans with BEE star labelled fans in Main block	2.65	0.26	122.69	2244	0.19
5	Energy Saving in Lighting by replacing existing 141 No's T8 Lamps to 18W LED Tube in Annex block	1.17	0.31	44.69	2717	0.23
6	Energy Saving in Lighting by replacing existing 36 No's 15W CFL Lamp to 9W LED Bulb in Annex block	0.06	0.01	73.44	599	0.05

7	Energy Saving by replacing existing 147 No's in-efficient ceiling fans with BEE star labelled fans in Annex block	3.20	0.31	122.69	2704	0.23
8	Energy Saving in Lighting by replacing existing 56 No's T8 Lamps to 18W LED Tube in Hostel block 1	0.46	0.40	14.11	3418	0.29
9	Energy Saving in Lighting by replacing existing 9 No's 15W CFL Lamp to 9W LED Bulb in Hostel block 1	0.02	0.01	18.36	150	0.01
10	Energy Saving by replacing existing 57 No's in-efficient ceiling fans with BEE star labelled fans in Hostel block 1	1.24	0.38	38.74	3320	0.29
11	Energy Saving in Lighting by replacing existing 34 No's T8 Lamps to 18W LED Tube in Hostel block 2	0.28	0.08	44.69	655	0.06
12	Energy Saving in Lighting by replacing existing 18 No's 15W CFL Lamp to 9W LED Bulb in Hostel block 2	0.03	0.01	36.72	300	0.03
13	Energy Saving by replacing existing 18 No's in-efficient ceiling fans with BEE star labelled fans in Hostel block 2	0.39	0.04	122.69	331	0.03
	Total	**10.32**	**2.32**	**65.32**	**22132.43**	**1.90**
(The saving are projected as per the assumed operation time observed based in the discussions with the plant officials. The data of saving percentages are taken from BEE guide books and field measurements. toE is tonne of oil equivalent)						

OTTOTRACTIONS- ENERGY AUDIT						
DE PAUL INSTITUTE OF SCIENCE AND TECHNOLOGY, ANGAMALY						
Greenhouse Gas Mitigation through Renewable Energy Projects						
Sl No	Projects	Energy saved(Yearly)		Sustainability (Years)	First year ton of CO2 mitigated	Expected Tons of CO2 mitigated through out life cycle
		(kWh)	MWh	Years		
1	Installation of 70 kW Solar Power Plant	89425	89.43	25	65.28	1632.01

Water Conservation Activities	
List four uses of water in your institute	Basic use of water in campus: 1. Drinking – 2. Gardening – STP treated water 3. Kitchen and Toilets – 4. Others –
How does your institute store water? Are there any water saving techniques followed in your institute?	Overhead Water Tanks and Sumps installed for storage of water. Water conservation are in place
If there is water wastage, specify why and How can the wastage be prevented / stopped?	No

Record water use from the institute water meter for six months (record at the same time of each day). At the end of the period, compile a table to show how many litres of water have been used.	No logbooks are available
Does your institute harvest rain water?	Yes
Is there any water recycling system?	Yes

General Environmental Awareness Questioner	
Are you aware of any environmental Laws pertaining to different aspects of environmental management?	Yes
Does your institute have any rules to protect the environment? List possible rules you could include.	Yes
Dose Environmental Ambient Air Quality Monitoring conducted by the Institute?	Yes
Dose Environmental Water and Wastewater Quality monitoring conducted by the Institute?	Yes
Dose stack monitoring of DG sets conducted by the Institute?	Yes
Is any warning notice, letter issued by state government bodies?	No
Dose any Hazardous waste generated by the Institute? If yes explain its category and disposal method	No
Are you aware of any environmental Laws pertaining to different aspects of environmental management?	Yes
Does your institute have any rules to protect the environment? List possible rules you could include.	No
Does housekeeping schedule in your campus?	Yes
Are students and faculties aware of environmental cleanliness ways? If Yes Explain	Yes
Dose Important Days Like World Environment Day, Earth Day, and Ozone Day etc. eminent in Campus?	Yes

Dose Institute participated in National and Local Environmental Protection Movement?	Yes
Dose Institute has any Recognition/certification for environment friendliness?	Yes
Dose Institute using renewable energy?	Yes
Dose Institution conducts a green/environmental audit of its campus?	Yes
Has the institution been audited / accredited by any other agency such as NABL, NABET, TQPM, NAAC etc.?	Yes

Best Practices and Initiatives	
Renewable Energy	Yes
Solar Power Plant	
Energy Audit and Green Audit Conducted	
Biogas Plant installed	
Biodiversity Conservation	Yes
Green Cover	
Tree Plantation Drives	Yes
ECO clubs	
Ground Water Recharge	Yes
Rain Water Harvesting System.	
Pollution Reduction Public Transportation	Yes
E Waste Management	Yes
Connected to authorized recycler	
Solid Waste Management	Yes
Lifting of garbage from SGT campus on alternate day by Municipal Corporation.	
Adoption of Village	Yes
CSR	
Water Conservation	Yes
Energy Conservation	Yes

RECOMMENDATIONS

1. Implement a utility monitoring program.
    - Allocate staff to carry out meter readings for electricity, waste and water on regular basis
    - Add monitoring data to spreadsheet so results can be viewed graphically
    - Compare with the utility bills meter readings in order to ensure accuracy;
2. Consider adopting and implementing a sustainable procurement policy which takes into account the whole life cycle of a product, and make sure environmental issues

are written into tenders when contracting out.

3. Consider trialing recycled paper again – many recycled brands today, such as Evolve, are just as good as virgin paper.
4. Trial the use of re-manufactured (i.e. refilled) ink and toner cartridges rather than purchasing new ones.
5. Consider producing some designated 'environmental' pages on the intranet to make it easier for staff to find environmental information. If possible a discussion forum could be set up to allow easy internal communications and staff to make suggestions for environmental improvements.
6. Environmental training could be formalized and carried out for all staff. It does not have to be too long or onerous, providing it covers key points, particularly in relation to waste so all staff are aware of the legal requirements. At the very least, environmental information should be included in the induction pack.
7. It is strongly recommended that environmental information is also given to students and staff during induction. It is particularly important for them to be aware of what waste they can dispose on site and where the can dispose of it, and what waste streams they must take away with them.
8. Consider implementing an environmental management system to incorporate all improvements and monitoring requirements. It does not need to be a complex system certified to any particular standard, merely a way of ensuring that baselines are set and progress is measured. Formation of Environment Policy and communicated to all faculties and other staff.
9. Plan for Zero Waste Campus Project
10. E-waste monthly inventory be maintained at campus as per E waste rules 2016.
11. Water Meter should be installed at institute for monitoring of water consumption per capita.
12. Increase in Environmental promotional activities for spreading awareness at campus.
13. Environment/Green committee formation for regulating eco-friendly initiatives at campus premises and periphery.

CONCLUSION

This audit involved extensive consultation with all the campus team, interactions with key personnel on wide range of issues related to Environmental aspects. The audit has identified several observations for making the campus premise more environmental friendly. The recommendations are also mentioned with observations for SGC team to initiate actions.

Carbon Foot Print			
Sl. No.	Particulars	Remarks	Tonne of CO_2e
1	Annual Electricity Consumption (kWh) Grid	**68199**	**55.9**
2	Annual LPG Consumption in kg	912	1.4
3	Annual Diesel Consumption (L)	4196	13.4
4	Annual Petrol Consumption (L)	3035	9.4
5	Food Waste in kg/yr.	449	0.3
6	Paper Waste in kg/yr	81	0.0
7	Plastic Waste in kg/yr	50	0.02
8	**Total Carbon Foot Print tCO_2e/yr**		**80.5**

However, there is scope for further improvement, particularly in relation to waste minimization and energy monitoring. By implementing a basic environmental management system, current good practice can be formalized and a framework can be set up for monitoring, implementation of action plans and continual improvement.

The audit team observed that the overall site is maintained well from environmental perspective. There is no major observations but few things are important to initiate urgently are waste management records by monthly inventory of hazardous waste, rainwater harvesting recharge; water balance cycle and periodic inspection of buildings; environment policy and initiation of composting at campus.

SCHOOL OF SOCIAL WORK

Social work day & Nature Club Inauguration 2017 – 2018

Report

21/3/18
153

World Social work day

World Social work day is celebrated each year on the third Tuesday of march. This year we the social workers students of dist celebrated on 21st march 2018. world social worker's day is when we celebrate and recognise social workers as champions for social justice, self-determination and human rights. It is the busy day in the year that social workers, world wide stand together to celebrate the achievements of the profession and take the same message into their communities, workplaces and their government to raise awareness of the social work contributions and push for further action.

The 2018 world social work day highlights "Promoting community and Environmental Sustainability" This is the second and final year of the theme of the global agenda for social work and social development.

Based on this our chief guest Ms Pushpamma kammath, who is an environmentalist, shared a great message including the use of medicinal plants. The Elective course Students delivered the vote of thanks and dispersed the meeting with natural energizing cactus milk drink.

NATURE CAMP 2018

Venue: Vazhachal Forest Range

Date: 12.03.2018

Report

A nature camp was organized by DES in Collaboration with the department of social forestry, Ernakulam, Kerala and nature club of DiST, Angamaly. The journey to the camp site started from DiST Angamaly on 12.3.2018 at 9.00am and reached Vazhachal forest office at 10.30am. There was an orientation session given by Mr. Appachan the retd. Range officer, Athirappilly range. Later on the students were taken into the forest for trekking and they had the chance to visit a tribal community of Vazhachal forest range. There was lunch and refreshments provided by the forest department. 60 members were present for the nature camp.

Meeting Minute

DES MEETING MINUTES - 2018

Date :- 28/02/2018 Time :- 11:30 AM
Day :- Venue :- Board Room

Participants :- Fr George Pollayil VC
Dr. Unny CJ
Mr. Jijo Joy
Mr. Subin George
Mr. Dintomon PD

A general meeting of DES is conducted at DES hall on 28.02.2018, 11:30 AM. Mr. Dintumon PD (Project officer) welcomed the gathering. The committee evaluated the previous meeting and programs of DES. The agenda of the meting was to arrange a program on observing 'International Women's Day' and to conduct 'Nature camp' with the support of Social Forestry Department. The actual idea behind the program is to organize a talk on different laws of for the protection of women, to give a token of appreciation to the Senior most supporting staff of DIST and to conduct a Streetplay based on DV Act. On discussion of 'Nature camp', Mr. Dintomon PD had arranged a class and trekking for Nature Club students with the support of Social Forestry Department in Vaghakala Vaghachal Forest Division. The Project officer ensured that the students will get maximum exposure about environment protection and sustainability from this one whole day program. The team approved idea with all hands. Fr. George Pollayil VC (Director of DES) gives some suggestions to managing time and resources for the program. The meeting concluded by 12.00 PM.

DE PAUL INSTITUTE OF SCIENCE & TECHNOLOGY

NATURE CAMP

Venue: Vazhachal

Date: 04.08.2017

The journey started at 8.00am from De Paul Annex campus with 34 NSS volunteers, 19 MSW students, 2 foreign students from James cook university, Australia and 6 faculty members. The team reached the Vazhachal forest range office at 10.30am. Mr. Karim P M the section forest officer of social forestry Angamaly and Mr. Praveen, the Beat forest officer of Vazhachal range welcomed the students cordially and introduced them to the area. Later, an orientation was given to the team by Mr. Appachan P O, Retired section forest range officer, about environmental protection. He discussed in his session about the different kinds of pollution caused to earth water and air and the possible remedies to it. Students clarified their doubts about forest and related topics in this session. Later on, the students were taken into the nearby area where he introduced different species of plants and animals to the students. In addition, he shared with them the basic things one should keep in mind while being in a forest area such as Vazhachal.

The lunch was provided by the forest office and after the lunch the team moved out for trekking to the forest. Since there were recent elephant attacks in the area the team could not go much into the forest. Due to that the students visited Vazhachal waterfalls and Athirappilly waterfalls and spent some time breathing fresh air and playing in the waters. The team thanked everyone who helped them in the camp and returned back at 4pm. A special thanks to Mr. Martin Lowel, Assistant conservator of forest, Edappally and Mr. K T Udayan range forest officer, Edappally for sanctioning this camp. The day was really an entertaining and informative one.

Nature Camp Conducted 13/1/18

Sadness organised a nature camp of 49 members including the faculty members and the students of MSW to Kottakkavu. The group was started from the college campus by 9 am on the 13th of April 2018.

The bus ride was fun as all the members shouted on it. Since it was a long drive to the destination the group had such amusements to beat bus and lunch on the way. Different items were prepared and taught and it was shared by all. It was late afternoon when we reached the destination.

The journey was through the forest and it was dark when we reached it to welcome us. After the group refreshed themselves, they had a campfire with small tasks and activities a bit of music and dancing and this was followed by a rich dinner. The group then got an opportunity to sleep under the night sky in sleeping bags.

Next day we went through some technical difficulties. water was scare and each had to manage with as little as a mug of water. The trip was even more exciting as the teams was able to build better bond with in.

The group reached back at the campus. at around 9 pm on 20/1/18.

TALK on 'Towards Tackling Increasing Waste & Plastic Problems'

Report

De Paul Institute of Science & Technology, Angamaly

REPORT

Waste management is a very important matter in today's society. Due to the rapid and continuous increase in the population, the amount of waste generating is increasing day by day. Moreover, the increase in the amount of waste is affecting the lives of so many people.

Looking into this threat the nature club organized a talk on 'Waste Management' on January 10, 2020. The programme began at 2 pm. The programme was inaugurated by Rev. Fr. George Pottayil VC', Director DiST.

The resource person was Mr. Jees Joseph, project coordinator, Welfare Services, Ernakulam. Talk was of one hour.

He spoke on , the several methods and techniques through which the waste can be disposed of. Some of these methods are Landfills, Recycling, Composting, and many other techniques. Furthermore, these methods are greatly useful in the process of disposing of the waste without causing any harm to our environment and surroundings.

The talk came to an end by 3.30 pm with a vote of thanks by Vysakh Anil Kumar(MSW 19 , batch)

ANGAMALY SOUTH-683 573, KERALA

NSS Special Camp

The Special Camp for seven days from 23rd to 29th was a meaningful one for the goal it achieved and the spirit it created. During the camp NSS volunteers cleaned an irrigation canal. The villagers and all the popular news papers acclaimed the good job well done. There were seminars and classes on various topics including organic farming by the experts. Cultural programmes and classes on personality development helped the volunteers in shaping their personality.

The camp was at Parappuram, Kanjoor Grama Panchayat and was inaugurated by Mr. M P Ionappan Kanjoor Grama Panchayath President and Rev. Dr. James Chelapurath V. C was on the chair. Mr Sebastian Paul Vice President and various dignitaries felicitated the inaugural meeting. Asst Prof. Mr. Ajesh T A welcomed the gathering and Asst Prof. Mr. Shameer M A expressed the vote of thanks . "The special camp was a wonderful experience and it changed altogether my attitude towards life" remarked a camper.

Class on Leadership Quality

NSS units conducted a class on personality development and leadership skills for the NSS volunteers. Renowned resource person and corporate trainer Mr. Deepak Mohan and Mohammed Aslam led the classes.

Class on Organic Farming

An informative as well as practical class on organic farming was conducted by Mr. Francis(Manager, Aiswaryagram) an agriculturist with a theme of home farming safe food. He demonstrated the various practical method for every home to have some farming.

Classes on Kaliyarang

A practical class on kaliyarang was conducted by Mr. Arun S Unnithan and Mr. Badusha Mohammed.

X'Mas Day Celebration at Old Age Home

On 25th Dec 2016 NSS volunteers visited an old age home Deivadan Centre at parappuram. Volunteers celebrated their Christmas by cutting cake with the members in that old age home. Volunteers arranged various cultural activities with the members. And also they interact with the members.

Jaivam 2017 – NSS Special Camp

The Special Camp Jaivam 2017 started from 31st Aug 2017 to 6th Sep 2017 was a meaningful one for the goal it achieved and the spirit it created. During the camp NSS volunteers conducted an organic survey to literate the people about organic farming. The villagers and all the popular newspapers acclaimed the good job well done. There were seminars and classes on various topics including organic farming by the experts. Cultural programmes and class on organic farming related matters helped the volunteers in shaping their talents.

The camp was at Aymanam Grama Panchayath and was inaugurated by Mr. A K Alichan, Aymanam Grama Panchayath President and Fr. George Pottayil V. C and Dr. Unni C J was on the chair. Ms Sheela Soloman Head Misstress CMS High School Olassa and various dignitaries felicitated the inaugural meeting. Asst Prof. Mr. Ajesh T A welcomed the gathering and Asst Prof. Mr. Shameer M A expressed the vote of thanks. "The special camp was a wonderful experience and it changed altogether my attitude towards life" remarked a camper.

Class on Leadership Quality

NSS units conducted a class on personality development and leadership skills for the NSS volunteers. Renowned resource person and corporate trainer Mr. Amal Raj and Mr. Nibin Benny led the classes.

Class on Organic Farming

An informative as well as practical class on organic farming was conducted by Mr. Chandi ward member of Aymanam panchayath an agriculturist with a theme of home farming safe food. He demonstrated the various practical method for every home to have some farming.

Onam Day Celebration at CMS High School Olassa

On 4th September 2018 NSS volunteers celebrated Onam with different games and cultural programs. It was a sumptuous traditional Kerala onam sadya with all variety of curries and payasam.

NSS Special Camp

The Special Camp for seven days from 20th to 26th was a meaningful one for the goal it achieved and the spirit it created. During the camp NSS volunteers cleaned an irrigation canal. The villagers and all the popular news papers acclaimed the good job well done. There were seminars and classes on various topics including organic farming by the experts. Cultural programmes and classes on personality development helped the volunteers in shaping their personality.

The camp was at Kunnukara, Kunnukara Grama Panchayat and was inaugurated by Mr. Francis Tharayil, Kunnukara Grama Panchayath President and Rev. Fr. George Pottayil V. C was on the chair. Dr Unny C J, Principal DiST and various dignitaries felicitated the inaugural meeting. Asst Prof. Mr. Shameer M A welcomed the gathering and Mr. Akshay Jomon expressed the vote of thanks. "The special camp was a wonderful experience and it changed altogether my attitude towards life" remarked a camper.

Class on Leadership Quality

NSS units conducted a class on personality development and leadership skills for the NSS volunteers. Renowned resource person and corporate trainer Mr. Binu Xavier, IELTS trainer, Key institute led the classes.

Classes on Kaliyarang

A practical class on kaliyarang was conducted by Mr. Arun S Unnithan and Mr. Badusha Mohammed.

X'Mas Day Celebration at Kunnukara Grama panchayath

On 25th Dec 2019 NSS volunteers visited Kunnukara grama panchayath, volunteers performed a flash mob regarding clean Kunnukara. Volunteers celebrated their Christmas by cutting cake with the members of asha workers, kudumbasree workers, anganvadi teachers and various members present there. And also they interact with the members.

Camp Review Meeting

There was a review meeting of the Special camp on 27th December. The volunteers shared their impressions and reviews of the camp and all of them were very enthusiastic about NSS and were willing to undertake any future projects. The outcome of the camp was

- Positive change in the attitude of volunteers
- Participation with NGOS
- Promotion of people's participation
- Encounter with realities of life
- Promotion of innovative models in campus community partnership

ATTENDANCE REGISTER

20[illegible] - 20[illegible]

[illegible] Institute of Science & Technology COLLEGE

Kunnukara Grama Panchayath

Unit No. 204, 194 A

Venue of Camp: St. Anne's Public School, Athanassery

Dates: [illegible] to [illegible]

HOW TO USE THIS REGISTER

1. The register has to be signed by the campers on each day of the camp.
2. The campers have to reach the campsite at least before noon on the first day and may depart from there in the evening of the last day of the camp.
3. Ten percent of the total number of campers may belong to the category "non-student campers."
4. The camper's strength allotted to a college is normally 50% of the volunteer strength of the college. This number includes the teachers who give guidance in the camp.
5. The Programme officer has to countersign the register on each day of the camp.
6. The Principal is requested to countersign the register when he visits the camp.
7. The attendance register in duplicate has to be sent to the University by registered post as soon as the camp is over and no addition or correction will be allowed.

SCHOOL OF SOCIAL WORK

Social work day & Nature Club Inauguration 2017 – 2018

Report

21/3/18
153

World Social work day

World Social work day is celebrated each year on the third tuesday of march. This year we the msw students of dist celebrated on 21st march 2018 world social workers day is when we celebrate and recognise social workers as champions for social justice, self-determination and human rights. It is the busy day in the year that social workers, world wide stand together to celebrate the achievments of the profession and take the three message into their communities, work places and their governments to raise awareness of the social work contributions and rund for further action.

The 2018 world social work day highlights "Promoting Ommunity and Environmental Sustainability." This is the second and final year of this theme of the global agenda for social work and social development.

Based on this our chief guest Mr Purushothaman Kamath, who is an environmentalist, shared a great msg on including the use of medicinal plants. Mr Elethan (msw student) delivered the vote of thanks and dispersed the meeting with nakkad energizing butter milk drink.

De Paul Extension Services (DES)

Vegetable Gardening

Report

DE PAUL INSTITUTE OF SCIENCE & TECHNOLOGY

DE PAUL EXTENSION SERVICES (DES)

In collaboration with

SCHOOL OF SOCIAL WORK

Vegetable Gardening

Venue: School of Social Work, DiST

Date: 14.06.2018

Report

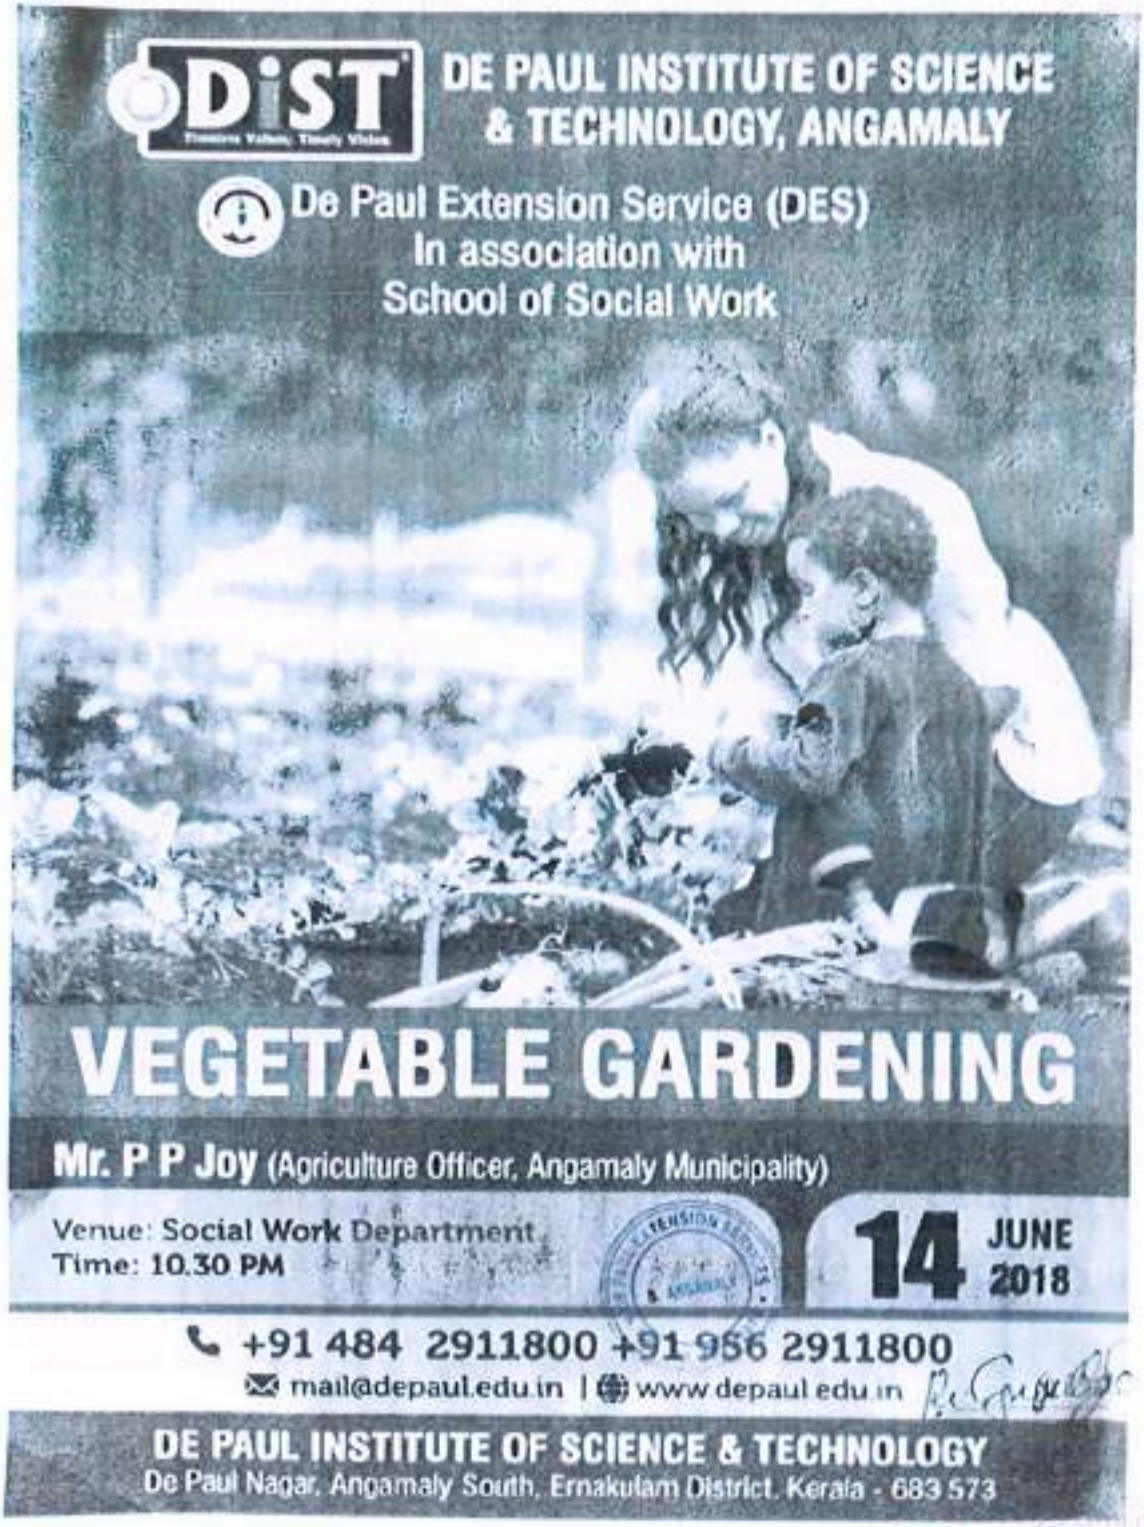

On 14th June 2018 DES in collaboration with the MSW Department of De Paul institute of science and technology started the initial phase of vegetable gardening. The agriculture officer of Angamaly Municipality Mr. P P Joy provided the vegetable seedlings for the planting. The MSW students bear the cost of the grow bags and they planted the sapling to grow bags. There are different varieties of vegetable seedlings such as Brinjal, ladies finger, tomato and different varieties of chilies included in the garden. All the plants are being taken care of well. Mr. Jijo Joy (HOD, MSW) Mr. Subin George (President, Nature club) and Mr. Dinto (DES) lead the planting activities.

Meeting Minutes

10

Date :- 06/06/2018 Time :- 3:30 PM

Venue :- Board room

Participants :- Fr. George Pottayil VC
Dr. Unny CJ
Mr. Jijo Joy
Mr. Subin George
Ms. Sherin Paul
Mr. Dintomon P D

A general committe meeting of DES was conducted at DIST Board Room on 06.06.2018, 3:30 PM. The committee gathered for the discussion for introducing a 'vegetable Gardening' activity and the Observation of 'International Yoga day' in the month of June. Mr. Dintomon PD (Project officer, DES) Welcomed the gathering. One of the main agenda to be was to create a vegetable garden in the premises of Social work Department. Mr. Dintomon ensures to arrange the seedling required for the vegetative garden from Angamaly Municipality. The second agenda was to be on observing International Yoga Day on June 21st. Mr. Dintomon suggested to to practice yoga in campus with the guidance of a 'Yoga achanya' The committee agreed to agendas and suggestions discussed. The meeting concluded by 4.00 pm.
